2611 - 26th Street
Sacramento, CA 95814

ROCKLIN POLICE DEPARTMENT

EXPLOSIVE PERMIT PROCEDURES

The following five (5) areas shall be completed prior to issuance of an Explosive Permit:

1. Completion of the "Explosive Permit Application", RPD Form 97-39, including thumb print.
2. Proof of an insurance policy valued from \$100,000 to \$2,000,000. The exact amount will be determined by the Chief of Police.
3. A blaster's license "good standing" check through the State of California.
4. Add any additional restrictions or conditions to the "Explosive Permit".
5. Have the "Explosive Permit Application" reviewed and signed by the issuing authority of this Department or their designee.

SECTION 1 - PERMITTEE INFORMATION

The applicant must fill out the "Explosive Permit Application" completely. Once completed, the applicant must have his thumb print taken and placed on the application. If the applicant is using under one-hundred (100) pounds of explosives, a fee of \$2.00 will be paid at the time the application is turned in for review. If the applicant is using over one-hundred (100) pounds of explosives, a fee of \$10.00 will be paid at the time the application is turned in for review. **All fees are non-refundable.**

SECTION 2 - INSURANCE

The applicant must provide proof of insurance coverage in a specified amount from \$100,000 to \$2,000,000 in accordance with Uniform Fire Code, Section 77.104 and the City of Rocklin Municipal Code Chapter 8.28. The exact amount will be determined by the Chief of Police. This insurance coverage must be personal to the applicant. Copies of this proof will be attached to the Department's copy of the "Explosive Permit".

Once the Department has the completed copy of the "Explosive Permit" and the proof of insurance, the Records Supervisor will stamp the date received on the application. The applicant will be advised of a ten (10) day waiting period. In the

event the application process is completed in a period of less than ten (10) days, a portion of the waiting period may be waived.

SECTION 3 - PERMIT

The Records Supervisor will call the California State Licensing Board at 1-800-321-2752, and inquire into the "good standing" of the applicant/blaster license. If the applicant/blaster is not in "good standing" with the California State Licensing Board, it will be subject to the discretion of the issuing authority of this agency whether or not an "Explosive Permit" will be issued to said applicant.

SECTION 4 - REQUIREMENTS

There are standard requirements for the use of high explosives within the City of Rocklin. These requirements must be adhered to throughout the duration of the "Explosive Permit".

The permittee must document each explosive blast with a "Shot Report" describing weather conditions, distance to nearest structure, time of explosion, type of explosives, initiation system, and seismograph information. A seismograph is to be used to document the ground disturbance effect of each detonation.

A permittee will provide written notification to surrounding residents and/or commercial establishments of their intention to use high explosives in the area. The notification area will adhere to the recommendations of the federal and state laws for "scaled distance". The written notification must contain the following information:

1. The name, address, and telephone number of the permittee.
2. The normal hours of operation.
3. The type of warning device to be used and associated description of each individual warning signal with its meaning.
4. The nature and/or type of activity resulting from the use of high explosives which could impact individuals and property.

The issuing authority of this agency or their designee may add any additional requirements and/or conditions to the "Explosive Permit". These requirements or conditions will be written on Page 2 of the "Explosive Permit". Again, all requirements and/or conditions must be adhered to throughout the duration of the issued permit.

The issuing authority or their designee has the authority to inspect any work site and/or review any documentation to ensure the permittee is complying with the requirements of their "Explosive Permit".

SECTION 5 - DISTRIBUTION

The completed application, a copy of the insurance policy, and the blaster's license "good standing" report shall be forwarded to the issuing authority of this Department or their designee for review. The issuing authority or their designee will approve or deny the applicant's request for an "Explosive Permit". The issuing authority will sign and return the "Explosive Permit" to the Records Supervisor for final processing.

The Records Supervisor will contact the applicant and advise the applicant of the status of their permit. The Records Supervisor will distribute the paperwork as follows:

1. The original copy will stay with the issuing agency, and additional copies sent to those listed on Page 2 of the "Explosive Permit".
2. A copy will be given to the applicant.
3. A copy will be forwarded to the State Bureau of CII, Sacramento, Department of Justice, P.O. Box 820200, Sacramento, California, 94203-0200, Attention: Kathy Quinn.

EXPLOSIVE PERMIT DURATION / RESTRICTIONS

The "Explosive Permit" is valid for one (1) year from the date of issuance.

No modification or changes will be made to an existing permit. Any modification or changes shall require the issuance of a new permit.
